About us

Skywoods, a leading name in underwater diving lights, was established in 2010 by a team of seasoned lighting engineers and experts with decades of experience in designing and producing high-performance diving lights.

Driven by a passion for innovation and quality, our team is dedicated to creating lights that deliver exceptional optical performance, reliable water resistance, and user-friendly functionality, all tailored to meet the needs of divers.

At Skywoods, customer satisfaction, product integrity, quality excellence, and safety are our top priorities. We value customer feedback and are committed to delivering products that align with their requirements. Our range of diving lights caters to a broad spectrum of users, from recreational hobbyists to professional technical divers.

To better serve our customers, Skywoods has developed a comprehensive system encompassing channel distribution and after-sales support. We pay close attention to every detail, continuously enhancing our engineering practices, adopting advanced materials, and integrating cutting-edge manufacturing technologies. Our commitment to ongoing innovation and exploration in lighting technology ensures we remain at the forefront of the industry.

With unwavering confidence in our products, Skywoods proudly offers a 2-year warranty, underscoring our dedication to quality and customer satisfaction.

DIVING LIGHT SERIES

Skywoods D6

Build-in Type-C Charging Port

Range D6 is a compact and sturdy scuba diving flashlight with 1*CREE XPL2-V6 light chip produces brightness up to 1200 lumens. Powered by 1*18650 2600mAh battery which can be charged directly through the charging port in the tail cap. Specially made of Grade III anodized aircraft-grade aluminium alloy to make it more resistant to seawater.

Specification

Skywoods Camping & Emergency light

Multipurpose lantern that contains a flashlight and a 360° lantern light. Applicable scenarios: outdoor camping, emergency and maintenance lighting, night walking and other daily use. Easy attachable with build-in magnets that sticks to any iron metal surface and a hanging hook.

Includes a built-in power bank with USB-B connection, to use as an emergency charger.

The lantern light has a emergency mode, flashing between white and red light. For camping and outdoor activities at night, the lantern can be switched to red light, making it less attractive to insects such as ex. moths, mosquitos. The sturdy construction also makes the lantern shockproof and durable.
