Skywoods Camping & Emergency light

Multipurpose lantern that contains a flashlight and a 360° lantern light. Applicable scenarios: outdoor camping, emergency and maintenance lighting, night walking and other daily use. Easy attachable with build-in magnets that sticks to any iron metal surface and a hanging hook.

Includes a built-in power bank with USB-B connection, to use as an emergency charger. The lantern light has a emergency mode, flashing between white and red light. For camping and outdoor activities at night, the lantern can be switched to red light, making it less attractive to insects such as ex. moths, mosquitos. The sturdy construction also makes the lantern shockproof and durable.
